KEEP UP TO DATE

Between the time you ordered this report—which is only one of the hundreds of thousands in the NTIS information collection available to you—and the time you are reading this message, several *new* reports relevant to your interests probably have entered the collection.

Subscribe to the **Weekly Government Abstracts** series that will bring you summaries of new reports *as soon as they are received by NTIS* from the originators of the research. The WGA's are an NTIS weekly newsletter service covering the most recent research findings in 25 areas of industrial, technological, and sociological interest—invaluable information for executives and professionals who must keep up to date.

The executive and professional information service provided by NTIS in the **Weekly Government Abstracts** newsletters will give you thorough and comprehensive coverage of government-conducted or sponsored research activities. And you'll get this important information within two weeks of the time it's released by originating agencies.

WGA newsletters are computer produced and electronically photocomposed to slash the time gap between the release of a report and its availability. You can learn about technical innovations immediately—and use them in the most meaningful and productive ways possible for your organization. Please request NTIS-PR-205/PCW for more information.

The weekly newsletter series will keep you current. But *learn what you have missed in the past* by ordering a computer **NTISearch** of all the research reports in your area of interest, dating as far back as 1964, if you wish. Please request NTIS-PR-186/PCN for more information.

Keep Up To Date With SRIM

SRIM (Selected Research in Microfiche) provides you with regular, automatic distribution of the complete texts of NTIS research reports *only* in the subject areas you select. SRIM covers almost all Government research reports by subject area and/or the originating Federal or local government agency. You may subscribe by any category or subcategory of our WGA **(Weekly Government Abstracts)** or **Government Reports Announcements and Index** categories, or to the reports issued by a particular agency such as the Department of Defense, Federal Energy Administration, or Environmental Protection Agency. Other options that will give you greater selectivity are available on request.

The cost of SRIM service is only 45¢ domestic (60¢ foreign) for each complete microfiched report. Your SRIM service begins as soon as your order is received and processed and you will receive biweekly shipments thereafter. If you wish, your service will be backdated to furnish you microfiche of reports issued earlier.

Because of contractual arrangements with several Special Technology Groups, not all NTIS reports are distributed in the SRIM program. You will receive a notice in your microfiche shipments identifying the exceptionally priced reports not available through SRIM.

A deposit account with NTIS is required before this service can be initiated. If you have specific questions concerning this service, please call (703) 451-1558, or write NTIS, attention SRIM Product Manager.

Cambodia

Jen-min Jih-pao Editorial:

The Chinese and Cambodian people are comrades-in-arms and brothers. Our two people have forged great revolutionary friendship in the protracted struggle against imperialism. The Cambodian people's great struggle and victory constitute a powerful support to the Chinese people. The Chinese people will, as always, continue to perform their bounden internationalist duty, firmly support the Cambodian people's just struggle and strengthen their unity with the fraternal Cambodian people, fight shoulder to shoulder and make common progress.

("Jen-min Jih-pao Editorial: Warm Welcome to Glorious Envoys of Cambodian People," NCNA-English, Peking, August 14, 1975 -- SPRCP 75-34/195-196)

*

Teng Hsiao-ping, Vice Premier:

There is a profound revolutionary friendship between the peoples of China and Cambodia. Sharing weal and woe, our two peoples have encouraged and supported each other in the long revolutionary struggle against imperialism. Particularly in recent years, the militant unity and great friendship between us have grown in strength and developed further. The Chinese people greatly admire the fraternal Cambodian people for their revolutionary fighting spirit and are proud of having such a heroic people as their comrades-in-arms. At present, both our two peoples face the task of combating imperialism and hegemonism, and safeguarding and building our own countries. We firmly believe that in the days to come our two peoples will unite even more closely and march together toward new victories in the common struggle.

("Vice Premier Teng Hsiao-ping's Speech in Banquet in Honor of Cambodian NUF and RGNU Delegation," NCNA-English, Peking, August 15, 1975 -- SPRCP 75-35/29-33)

Iraq

Teng Hsiao-ping, Vice Premier:

The Chinese and Iraqi peoples have always been friendly to each other. The traditional friendship between our two countries dates far back in history. Over long centuries, people of our two countries, crossing the mountains and sailing the seas, carried on frequent contacts and close economic and cultural interflow over land and sea. Today, both our countries are developing countries belonging to the third world and face the common tasks of safeguarding state sovereignty and national independence and building our countries. The identity of fighting tasks has opened up very broad prospects for the development of the friendly relations and cooperation between our two countries. Since the establishment of diplomatic relations, the friendly relations and cooperation between our two countries have developed steadily with increasing contacts and ever deepening mutual understanding. We believe that His Excellency Vice President Marouf's current visit to China will surely make a new contribution to the friendly relations between China and Iraq.

("Vice Premier Teng Hsiao-ping's Speech," NCNA-English, Peking, July 4, 1975 -- SPRCP 75-29/143-146)

Sao Tome and Principe

Jen-min Jih-pao Editorial:

China and Sao Tome and Principe are far apart, but geographical distance cannot prevent friendship and cooperation between the two peoples. Both our two countries belong to the third world, we share the common objective of anti-imeprialism and anti-colonialism, and must constantly strengthen our unity and cooperation. The Chinese government has always maintained that all countries, big and small, should be equal. We strongly oppose hegemonism and power politics characterized by the big bullying the small, the strong domineering over the weak; we firmly support the African peoples in their just struggle against imperialism, colonialism, racism, Zionism and big power hegemonism, and are determined to strengthen the friendship and cooperation with the African peoples. We are convinced that the establishment of diplomatic relations between China and Sao Tome and Principe will further promote China's friendly relations and cooperation with the Democratic Republic of Sao Tome and Principe and other African countries, and the friendship between the peoples.

("Jen-min Jih-pao Greets Establishment of Diplomatic Relations between China and Sao Tome and Principe," NCNA-English, Peking, July 18, 1975 -- SPRCP 75-31/31-32)
